

Tips for Bord Bia inspectors when using Agrinet Herdmaster

Agrinet

When the farmer opens Herdmaster all data for inspections is available in the button “For Inspections” shown on the left

Above is contents of “For Inspections”

You can set report dates using dates on top left.

The button “Load” above on top line needs to be pressed to load this screen

The button “Inputs” will get to purchase of Feed, Fertilizer, Drugs and Sprays

The list of animal remedies is displayed initially.

On the top right it shows 1730 in this example, so 1730 remedies were given between 2 dates

“Herd Register” tab shows the register if the farmer does not use agfood as their register

“Sprays Applied” tab will report on the spray records

“Register Audit” tab shows changes to animals (useful if farmer not using agfood register)

“For Bord Bia” button will group the 1730 records so you can see groups treated by date

Remember you can drill down on any row to get full detail for the current animal
